Re: Paige Ahead Healthcare Education & Consulting

Over the preceding three years we have worked with Paige Hector in two distinct skilled nursing facility settings. We engaged Paige to conduct a compliance audit for a nursing home based in a rural community hospital. The nursing facility had been managed under unstable conditions for quite some time. Paige and her associates were engaged to complete a review of the current status of the nursing facility's compliance with federal and state rules and regulations for the operation of the nursing facility. Additionally, a comprehensive MDS audit was undertaken.

In the second setting, Paige and associates completed a pre inspection audit of a skilled nursing facility. In this instance the facility was an American Indian sponsored facility with its own unique circumstances which required special sensitivity to the residents, staff and community.

In both of the preceding instances, Paige completed the work in a thorough, timely and professional manner. The information was presented in a useful format permitting the staff to follow up and follow through. In part this was facilitated because of the practical approach to the presentation of the "findings" with the inclusion of back up references, forms and continued support by Paige after the report was provided to the owner.

Should the circumstances arise in the future, we will certainly work with Paige and encourage others who are in need of the services Paige Ahead Healthcare Education and Consulting provides to not hesitate to engage their services.

Sincerely,
